PLANNING	Planning all the modules and features which are going to implement
REQUIREMENTS	We decided what are the software's and tools we need and install the required resources
DESIGN	We design all the modules like login page, dashboard, Academic details form etc.,
DEVELOPMENT	We are going to develop the predictor which uses the previous dataset and academic details of the student. In this phase we use some algorithm for prediction
TESTING	We are going to test the model if we face any error we debug the error
DEPLOYMENT	Finally we submit the project in GitHub
